The accompanying notes on pages 6 to 9 are an integral part of these financial statements

#### NOTES TO THE ACCOUNTS AS AT 31st MARCH 2004

#### Basis of Preparation of financial statements

The financial statements have been prepared under the historical cost convention and include the results of the company's operations as set out in the Directors Report and which are continuing.

The Directors have reviewed the Company's activities over the coming year and believe that the Company is a going concern. Accordingly no provision is made for the diminution in value of assets which would result if this were not so.

#### Turnover

Turnover comprises of the Sales from Developments, Management fees and Rental from Property. Income is recognised when the transaction is subject to legal contract.

#### Work In Progress and Stocks

Work in Progress is valued at the lower of cost or net realisable value if in the Directors opinion the realisable value of the property is below the total project cost. Stocks of completed properties are held at the estimated market value net of selling costs. No depreciation is provided on properties because they are considered to be short- term assets held only until a sale can be arranged.

#### **Tangible Fixed Assets**

Fixed Assets are stated at cost or valuation less depreciation

Depreciation is provided at rates calculated to write off the cost of all fixed assets, less their estimated residual value, over their expected useful lives on the following basis:
